

Bionic Band® goes beyond today's science Got Pain?

Arthritis? Muscular? Back? Joint ? Carpal Tunnel? & More...

Results that have been submitted by users wearing the **Bionic Band®** are:

Reduction or Elimination of Pain

In many case the effects have been immediate.

How is this possible? Traditional Chinese Medicine (TCM) likens the human body to a highly complex electrical circuit. Like any electrical circuit it must be kept in good working order for it to function effectively, and if the circuit breaks down the result may be seen as pain, fatigue and illness. One of the major assumptions in TCM is that health is achieved by maintaining the body in a "**balanced state**" and that disease is due to an internal imbalance of yin and yang. This imbalance leads to blockage in the flow of energy along pathways known as meridians. TCM theorizes that it is essential for energy, as well as blood, to circulate in a continuous and unobstructed manner for optimal health of the mind and body.

In acupuncture, meridians, or channels, are the pathways through which the energy flows throughout the body. Acupuncture points lie along the meridians and provide gateways to influence, redirect, increase, or decrease the body's vital substances, energy and blood, thus correcting many of the body's imbalances.

When you place the **Bionic Band®** on your body, you are creating that same balance and also opening up the energy pathways (circuits) by aligning the protons and creating "cellular teamwork". All this **without** the needles of TCM!
